

**4<sup>th</sup> International Numismatic Conference of the *Coin Cabinet of the Royal Library of Belgium.***

In collaboration with the Research Foundation Flanders, the Fonds de la Recherche Scientifique and CORES Interuniversity Attraction Poles

**“Urban versus rural contexts: differences of monetization from ancient Greece to the early Middle Ages (coin finds, taxes and trade)”**

The Coin Cabinet, in collaboration with the Royal Library of Belgium, organizes an international conference every three years. The aim of these conferences is to promote the study of coinage from a long-term historical perspective.

On 16 May 2014, eight national and international speakers will shed their light on the use of coins in the countryside. You will find the program in attachment.

The cafeteria of the Royal Library will offer a sandwich-lunch to all participants of the conference (sandwiches, mini viennoiseries, beverages and coffee included at the price of **12€**, payment in cash the day itself). Next to this, the cafeteria offers sandwiches and hot dishes at affordable prices.

The conference will take place at the Royal Sky Room, Royal Library of Belgium, 2 boulevard de l’empereur, 1000 Brussels.

Participation is free, but registration is required. Please confirm your participation at: [celine.benamar@kbr.be](mailto:celine.benamar@kbr.be) and don’t forget to mention your participation to the lunch, if desired.
